

ABSTRACT

Adrianto Mii, “The Implementation of Quantum Learning Method on Civics Education Subject in Increasing Student’s Learning Achievement in Commerce System VIII grade of SMP Negeri 2 Telaga”. Department of Law and Social Sciences. Faculty of Socia Sciencesl. Universitas Negeri Gorontalo.

The purpose of this research was to increase the student’s learning achievement on civics education subject by applying quantum learning method. This class activity research was conducting in Commerce System VIII grade of SMP Negeri 2 Telaga with total numbers of students as the research subjects were 22 students consisted of 4 male students and 18 female students. This research applied descriptive method, by using student’s activity observation sheet and the result of student’s learning test after receiving the course.

This research was conducted in 2 cycles. The result of this research showed that by applying quantum learning method, the student’s learning achievement could be increased. This could be shown at the first cycle of second meeting, the student’s learning achievement was only 60% increased to 87% at the first cycle of second meeting. Therefore, if teacher applies the quantum learning method, the student’s learning achievement can be increased, tested, and accepted.

Keywords: Student’s Learning Achievement, Civics Education Subject, Quantum Learning.
