

Chapter V

Conclusion and Suggestion

Conclusion

After analyzing the data, the researcher can conclude several things there are two kinds strategy of found the word acronyms, the first is pronounced as a word and pronounced as sequences of letters. Based on the findings, there are 38 words that are found in the movies. The researcher found 4 words of word pronounced as a word, and 33 words acronym which pronounced as sequences of letters.

Based on the research, the process of the word which pronounced as sequences of letters is the most commonly process that is found in the movies. The using acronyms which pronounced as sequences of letters make the speakers easier to use. Because, acronyms can be the people are used to make simple activity in speaking.

Suggestion

Based on the conclusion previously, I would like to give suggestion about the research. Which have relation to acronyms analysis especially that are acronyms on movie.

For any further research, I suggest doing a discussion more comprehend about acronyms word formation process not limited on film but we can get the acronyms also in, advertisement, new paper and etc. The acronyms is also use in our life. Because the acronym is there and real, that's way we study it. This aimed to make easy for us in used language.

In the future, if I have a chance I will make the research better, not only limited on movie, but also I will discuss the acronym on magazine, advertisement, and new paper, and to give information more about the acronyms itself.
