

CHAPTER V

CONCLUSION AND SUGGESTION

1.1 Conclusion

Based on the result of research and discussion above, the researcher can give conclusion:

The process of English learning at Hubulo Islamic boarding school uses 2 methods. That is formal learning (environment of school) and informal learning (Environment of boarding). But the informal environment is dominant in the process of English learning at Hubulo islamic boarding school.

There are some factors influences of English learning. They are Environment factors such as formal and informal environment. Then motivation factor such as English speech, vocabulary, and conversation, and the last is teacher factor such as teaching method, and media of learning, and also the external motivation factor is the mine factors which very influence in English learning.

1.2 Suggestion

There are some suggestion from researcher:

The first is to this school itself, to make students easy in the process of English learning in formal environment, so the facility of learning like language of laboratory is must be complete and to more improving the students' interest, the giving reword and punishment is good method to the students.

The second is to the next researcher who get the same topic, please searching the other motivation eksternal factors which influence of English learning or language learning. Because of the eksternal motivation is the factors which have a big effect in language learning, especially English learning.
