

ABSTRACT

Nanang P.Korompot (2013): “Descriptive Study on Teaching English Literature by Using Tale”.

This study aims to find the learning model of children's literature in the junior high school. I am interested to do research entitled “**Descriptive Study on Teaching English Literature by Using Tale.**”

The method of this research is quantitative descriptive method. The data of this research have been collected from the participants at SMP N 4 Passi especially in eight grade students academic years 2013/2014. There were two techniques have been used to collect the data, they are observation and interview. Furthermore, the data have been analyzed by analyze the data for organize and separate the data into general and specific information from the participants and my observation.

The result of this study can be concluded that there are three factors that effect the low of students' literary interest, first is methods and media that used by teachers, second is students' knowledge of literary including tale and the third is the Interest of Students to Learning Literary and English Language. Based on the third indicators, I concluded that the application of tales have the positive influence and can improve students' ability in English and literature learning.

Key Words: *Tale and Teaching Tale.*
