

Chapter V

Conclusions and Suggestions

Conclusions

Based on the analysis of this research about the English Newspaper in effecting the students' ability in vocabulary, the researcher would like to present several conclusions as follows:

Firstly, in teaching and learning vocabulary by using the appropriate media could help the students to understand the material and they become enthusiasm to follow learning process. Besides, the appropriate media could bring the successful in learning and teaching vocabulary in the class.

Secondly, the English Newspaper is the one alternative of supporting media that could be applied in teaching and learning process because more information that could be taken in newspaper itself. There are some new words could enhance students' ability in mastering vocabulary.

Thirdly, the improvement of students' ability in mastering vocabulary by using the English Newspaper could be seen from the result of post – test were better than the result in pre – test. The total in post – test was about 328 and the pre – test was 291. Based on the result, it means that the increasing of students' score are about 3, 7 %. On the other words, there is the effect of reading English Newspaper towards students' ability in mastering vocabulary.

Finally, the hypothesis of this research is about the using of English Newspaper of Jakarta Post can effect the students' vocabulary during learning process with the result of $t_{\text{count}} \geq t_{\text{list}}$ or $3.14 \geq 2.16$. It means that the hypothesis is accepted.

Suggestions

Based on the conclusion above, the researcher suggested in learning English, the teachers who want to build the students' vocabulary should apply the appropriate media. Because using the media in learning process has the crucial function to make the students become interest to follow the learning process. Media that could be used by the teachers have some kinds. They are comic, newspaper, magazine, game, books etc.

Newspaper is one of the supporting media that selected by the researcher during learning process because this media have some functions that very useful for the reader especially the learner. The functions of newspaper are to inform, to educate and to entertain. Therefore, the selection of this media is one of the appropriate way in teaching vocabulary. Applying the newspaper during learning process can help the teachers to increase students' vocabulary, because there are new words that could be taken to learn, memorize one by one the words, and practice every day. Besides, more information in newspaper can enrich the students' knowledge about some events that happen around the world. Thus, the applying of newspaper in learning process can be considered as the reference for

other researchers to conduct their research especially to improve the students' ability in mastering vocabulary.
