

## ABSTRACT

Siskawati Moha. 2014. **The Relation between Work Environment and Work Stress of Nurse at Intensive Room of Public Regional Hospital (RSUD) Prof. Dr. H. Aloe Saboe Gorontalo City.** Skripsi, Study Program of Nursing, Department of Nursing, Faculty of Health and Sport Sciences, Universitas Negeri Gorontalo. The principal supervisor was Rini Fahriani Zees, Ns, M.Kep and the co-supervisor was dr. Nanang Roswita Paramata, M.Kes.

Work stress is overload work, unwell feeling, and emotional strain which obstruct individual's performance. The work environment is anything around the worker which affects the worker in doing his/her duty. The research aimed at investigating the relation between work environment and work stress of nurse at intensive room of Regional Public Hospital (RSUD) Prof. Dr. H. Aloe Saboe of Gorontalo City.

The research applied cross sectional design. The population of research were all nurses at intensive room. The samples of research were 56 respondents gained through purposive sampling. The instrument of research was questionnaire. The data were analyzed through spearman rho test.

The research result showed that there was relation between work environment and work stress of nurse ( $p$  value = 0,000) at intensive room of Regional Public Hospital (RSUD) Prof. Dr. H. Aloe Saboe of Gorontalo City. It is suggested to the nurses to create and to maintain the conducive work environment and also to increase the relationship between nurses.

Keywords: Work Environment, Work Stress of Nurse
