ABSTRACT

Paula, Mukmin Mutia. 2014. *The Relation between Knowledge and Community's Habit in Consuming Medicine Sold in Small Shop at Dusun II of Tuladenggi Village, Telaga Biru Subdistrict, Gorontalo District.* Skripsi, Department of S1 Nursing, Faculty of Health and Sport Sciences, Universitas Negeri Gorontalo. The principal supervisor was Hj. Dian Saraswati, S.Pd, M.Kes and the co-supervisor was Vik Salamanja, S.Kep, Ns, M.Kes. Bibliography: 30 (1998-2013).

Medicine is chemicals which has both advantage and disadvantage for human body. The advantages, for example, are to prevent and decrease the pain. But, currently, the use of medicine for society sometimes is not appropriate with the need of the disease. It is caused by the lack of knowledge and attitude of society in consuming medicine sold in small shop.

The research aimed at investigating the relation of knowledge and society's habituation in consuming medicine sold in small shop at Dusun II of tuladenggi village, Telaga Biru subdistrict, Gorontalo district.

The research applied *Cross Sectional* approach. The samples were 296 respondents gained through *Slovin* technique. The technique of data collection was questionnaire. The data analysis was *Chi-Square* statistical test.

The research result showed that most respondents who had bad knowledge were 168 (56,6%), the respondents who had high habit in consuming medicine were 179 (60,5%). Based on the result of statistical test, it gained $p = 0,008$ ($< \alpha = 0,05$) means that there was relation between knowledge and society's habit in consuming medicine sold in small shop.

It can be concluded that there was relation between knowledge and society's habit in consuming medicine sold in small shop at Dusun II of Tuladenggi village, Telaga Biru subdistrict, Gorontalo district. It suggests to all parties particularly society to be more motivated in increasing the knowledge about the use of medicine and to do the treatment in medical service center.

Keywords: *Knowledge, Habituation in Consuming Medicine in Small Shop*
