

ABSTRACT

Megawati Hartoyo Umar. 2014. *The Information System of the Distribution of Rice for Poor Families (Raskin) in Perum Bulog Subdivre Gorontalo. Final project of Informatics Management Study Program, Department of Informatics Engineering, Faculty of Engineering, Universitas Negeri Gorontalo 2010.*

The program of rice for poor families (Raskin) is able to decrease the expenditure of the particular household by providing rice from The Coordinating Ministry for People's Welfare. This research was conducted because in the previous system, there were frequent errors in processing the data and in determining the amount and price of the rice. This research has purposes to help BULOG in processing the data of Raskin and to minimize the problems occurred in the previous system at Perum BULOG SubDivre Gorontalo.

The method of this research is observation, interview and also designing an application of information system at Perum Bulog SubDivre Gorontalo.

The result of this research shows that this system helped the employee of Perum BULOG in processing or input the data of Raskin. There is no error occurred in determining the summation of rice's price that distributed to the village administration officer in order to provide fast, efficient and accurate information.
