

Chapter I

Introduction

Basic Consideration

It has been noticed that the development of movie industries are highly developed around the world, It is also believed that movie is used as a trading center in other countries. Because movie may give a depiction of a means of entertainment and giving such motivation to the audience by watching movie we can find variety of know knowledge directly narrated from the movie.

I choose movie to become the subject of my research because there are a lot of interesting things in the world of cinema. We can also get any knowledge which can build positive motivation only by watching the movie, Caused by the real story then produced into becoming a really interesting movie directed by Sean McNamara, the "*Soul Surfer*" becoming one interesting movie to be studied. The main character of this movie is Bethany Hamilton, she acts and the role as a professional surfer. Besides, this movie might gives a lot of inspiration to those people who have kind of physical disorder.

Basically this movie inspires those people who watched it as example of real value of good life so that it can be applied or implemented in the real life, about a emotion and feeling of fighting to maintain an idea and showing the social interaction construction by keep sharing each other. According to Broussard & Garrison (as cited in Lay 2011, p. 14) motivation is also related to achievement and IQ. In my opinion the motivation itself is an achievement that should be

achieved and the corresponding ability or potential of being owned. An example of a conversation occurs between Bethany Hamilton and Cherry Hamilton is showed as follow.

This conversation containing :

Bethany Hamilton: Sarah's really bumming me out.

Cheri hamilton : Any particular reason?

Bethany Hamilton : Yeah. So, I told her I'm not coming to Mexico.

(TSS:223: 00:14:52,591 -->00:14:59,291)

It can be seen from the conversation above which occurs between Bethany Hamilton and Cherry Hamilton is containing emotion feeling showed by the way Bethany talles. She was angry with Sarah, because Sarah wouldn't let Bethany to go to mexico in joint the race and assume that being able to go to mexico is more important than helping children there. However her mother (Cherry) did not even give any good response because she knows that Bethany canceled her trip to go to mexico on her own.

The following coversation containing motivation which occurs between Bethany Hamilton and Tom Hamilton.

Bethany Hamilton : Malina full on stole my wave, I had position.

Tom Hamilton : It's okay, its all right. Look, next time, I want you to really focus. On just diving into the water as far as you can. Rip that paddle back.

(TSS: 116:00:09.45,885 -->00:09:55,48)

By seeing the conversation above, Bethany Hamilton was having her wave but someone stole it from her. She was upset but then her father encourage her to keep her spirit, stay focus and swim faster next time because her father believes that she can certainly do all of that.

Movie of “*Soul Surfer*” is derived from true story and was solely written by Bethany Hamilton who was born in the family of surfer, no one suspected that an accident, Bethany life was changed. She was no longer have her left hand her dream of being a professional surfer could not be realized. This movie was released in April 2011 and the true occurrence was in October 31th 2003 when Bethany Hamilton was 13 years old. Struggle is an effort that will move ourselves to reach what we want, this is a very strong encouragement for every individual in struggling life and reaching a dream for a better future.
