After I watched “*Soul Surfer*” movie which was taken from the true story of Bethany Hamilton’s life, we can watch from that movie about there are much effort that Bethany struggles in her life to be a professional surfer. When she was a child, she desired to be a professional surfer. Although she has an imperfection body, she struggled to get her desire. She lost her left arm because the shark bit it. Although she had an imperfection body, she was not hopeless but she was motivated to struggle her

desire to be a professional surfer. She believed, she could undergo her life with her beloved families' support. She also gave thanks to God because she still survived from the incident. The struggles which Bethany did are she always prayed to God, She always strove, she always trained to a surfer, she shared to other, she always gave thanks to God.

Besides that explanation above, Bethany also got the support from her family, friends and other people who knew her to keep training for surfing even though it was difficult to do by one hand. It was difficult to be done by Bethany but her determination is strong and she also got much motivation from other people, made her motivated to attain her desire to be a professional surfer.
