

CHAPTER V

CONCLUSION AND SUGGESTION

Conclusion

In conclusion, there are 10 semiotics signs that the researcher found in the scenes of the Mummy Returns movie. The researcher analyzed the signs by using pierce's theory of signs, such as icon, index and symbol.

The icon in this movie is something that represents to one thing that has a relationship. In other words, icon is relation of sign and object or reference that has a very near resemblance, for example a picture with the people who in the picture a map and the geographies location. For example in this movie, scarab is the icon of Khepri or the God of Sun and Anubis is the icon of God of Death in ancient Egypt belief. The icons above have relationship with the thing that explained.

The icons that researcher took had an index. As we know, index is sign that show the natural relationship between signifier and signified that causative or has cause and effect relationship. The researcher explained the cause and effect that happened in the scene that showed from the icons. Such as tattoo that had by Rick O'Connel in the Movie, it is as a sign that Rick was the medjai. Mummy is ancient Egypt people that have dead, but they were rich person that have much money.

The last is symbol. After showed the icon and index, the researcher explained the symbol or the meaning of that scene that showed by the picture. The

relationship between a symbol and its object is more abstract and arbitrary. The researcher explained symbol based on the dialogue and something that happened in the scene. Then the researcher looked for the meaning. The symbol that researcher found in the movie such as the Scorpion King is the Symbol of Darkness, Bracelet of Anubis is a symbol of Strength, tattoo that had by Rick is a symbol of Medjai.

That is all that the researcher can conclude based on the result that found in this research. It is about the semiotics sign in The Mummy Returns Movie. The researcher analyzed the signs by using pierce's theory of signs, such as icon, index and symbol.

Suggestion

The researcher hoped this researcher could be the reference in teaching and learning process. It will give the reader more knowledge about semiotic signs that appear in the movie especially by using Pierce's theory of signs.

The researcher suggest for the next researcher will be interested to conduct research about semiotics. This research also can be reference to the further researcher that wants to analyze about the semiotics signs. It will give the helpful information that they need in conducting their research.
