

ABSTRAK

Nurnaningsih Ayuba. 2015. *Hubungan Peran Ibu Dalam Stimulasi Dini dengan Perkembangan Anak Usia Toddler di Desa Hutabohu Kecamatan Limboto Barat Kabupaten Gorontalo.* Skripsi, Jurusan S1 Keperawatan, Fakultas Ilmu-Ilmu Kesehatan dan Keolahragaan, Universitas Negeri Gorontalo. Pembimbing I dr. Vivien Novarina A. Kasim, M.Kes dan Pembimbing II Ns. Wirda Y. Dulahu, S.Kep.,M.Kep.

Usia *toddler* merupakan usia dimana anak mengalami perkembangan yang sangat pesat, karena tingkat plastisitas otak sangat tinggi sehingga lebih terbuka dalam proses pembelajaran dan bimbingan. Salah satu faktor yang dapat mempengaruhi perkembangan anak adalah peran ibu. Penelitian ini bertujuan untuk mengetahui hubungan peran ibu dalam stimulasi dini dengan perkembangan anak usia *toddler* di Desa Hutabohu Kecamatan Limboto Barat Kabupaten Gorontalo.

Penelitian ini merupakan survey analitik dengan rancangan *Cross Sectional*. Populasi dalam penelitian berjumlah 166 responden dan sampel berjumlah 95 responden dengan teknik *Purposive Sampling*. Pengumpulan data dilakukan melalui metode angket dan observasi menggunakan uji statistik *Chi Square*.

Hasil penelitian menunjukkan bahwa terdapat hubungan peran ibu dalam stimulasi dini dengan perkembangan anak usia *toddler* di Desa Hutabohu Kecamatan Limboto Barat Kabupaten Gorontalo dengan nilai $p = 0,000$ dengan taraf signifikansi $\leq 0,05$. Diharapkan bagi orang tua terutama ibu agar dapat memberikan stimulasi dini yang sesuai dengan tahapan perkembangan anak dan dapat mengenali gangguan perkembangan pada anak sehingga dapat dilakukan penatalaksanaan sedini mungkin.

Kata Kunci : Peran Ibu, Perkembangan, Usia *Toddler*.

ABSTRACT

Nurnaningsih Ayuba. 2015. *The Relation between Mother's Role in Early Stimulation with Toddler Development at Hutabohu Village, Limboto Barat Sub-District Gorontalo District.* Skripsi, Department of S1 Nursing, Faculty of Health Sciences and Sports, State University of Gorontalo. The principal supervisor was dr. Vivien Novarina A.Kasim, M.Kes and the co-supervisor was Ns. Wirda Y. Dulahu, S.Kep., M.Kep.

Toddler is a period when children develop quickly, because of level of brain plasticity is very high, so that they more open in learning process and guidance. One factor that influences children's development is mother. This research aimed at investigating the Relation between mother's role in early stimulation with toddler development at Hutabohu village, Limboto Barat sub-district Gorontalo district.

This research was an analytical survey research with cross sectional design. The population of this research were 166 respondents and samples were 95 respondents out of total population gained by Purposive Sampling technique. The techniques of data collection were questionnaire and observation using Chi Square statistical test.

The research result showed that there was relation between mother's role in early stimulation with toddler development at Hutabohu village, Limboto Barat sub-district Gorontalo district by having p value = 0,000 with level of significance level $\leq 0,05$. It is suggested that parents particularly mother can give early stimulation which appropriate with level of children development and can recognize the children development disorder so that the problem can be overcome as soon as possible.

Keywords: Mother's Role, Development, Toddler
