
ABSTRACT

Lia Prisilia Jusuf. 2015. *The Relation between Posyandu Cadres with The Effort In increasing Measles Immunization Covering at Puskesmas Buladu, Sub-District of Kota Barat, Kota Gorontalo.* Skripsi. Study Program of S1 Nursing, Faculty of Health Sciences and Sports, State University of Gorontalo. The principal supervisor was dr. Nanang Roswita Paramata, M.Kes and Co-supervisor was H. Ahmad Aswad S.Kep, Ns, M.Ph.

Each cadre of posyandu has role in doing posyandu performance. The better the role of the cadre, the better the measles immunization covering since it is due to the importance of the role of posyandu cadre in the implementation of the posyandu and the toddler mother's motivation to bring the toddler at posyandu in order to get immunization. The research aimed at investigating the relation between Posyandu cadres and the effort in increasing measles immunization covering at Puskesmas Buladu, Sub-District of Kota Barat, Kota Gorontalo in 2015. The research applied cross sectional design. The population of research were 31 respondents. The samples were 31 respondents gained through accidental sampling method.

The result of univariate analysis showed that the posyandu cadres who had active role were 24 respondents (77.4%) and the toddlers who had measles immunization through injection were 23 toddlers (74.2%). Meanwhile, bivariate analysis result using Chi-Square gained p value = 0.031 ($\alpha=0,05$). It can be concluded that there was significance relation between Posyandu cadres with the effort in increasing measles immunization covering at Puskesmas Buladu, Sub-District of Kota Barat, Kota Gorontalo in 2015. It is suggested that the posyandu cadres at Puskesmas Buladu should motivate the mother's toddler to bring the toddler to Posyandu.

Keywords: Cadres' Role, Measles Immunization Covering

ABSTRAK

Lia Prisilia Jusuf. 2015. *Hubungan Peran Kader Posyandu Dengan Upaya Peningkatan Cakupan Imunisasi Campak di Puskesmas Buladu Kecamatan Kota Barat Kota Gorontalo.* Skripsi Program Ilmu Studi Keperawatan Fakultas Ilmu-Ilmu Kesehatan dan Keolahragaan, Universitas Negeri Gorontalo. Pembimbing I dr. Nanang Roswita Paramata M.Kes dan Pembimbing II H.Ahmad Aswad, S.Kep, Ns, M.Ph.

Setiap kader posyandu memiliki peran hal dalam pelaksanaan posyandu. Semakin baik peran kader maka semakin baik pula cakupan imunisasi campak dikarenakan peran kader posyandu sangat penting terhadap pelaksanaan posyandu dan juga memotivasi ibu balita untuk membawa balita ke posyandu untuk mendapatkan imunisasi. Tujuan dari penelitian ini adalah untuk mengetahui hubungan peran kader posyandu dengan upaya peningkatan cakupan imunisasi campak di Puskesmas Buladu Kecamatan Kota Barat Kota Gorontalo Tahun 2015. Desain penelitian ini menggunakan jenis penelitian *Cross Sectional*. Populasi dalam penelitian ini adalah sebanyak 31 responden dengan menggunakan teknik sampling *Accidental Sampling*, maka didapatkan jumlah sampel sebanyak 31 responden.

Hasil analisis univariat didapatkan peran kader posyandu yang aktif sebanyak 24 responden (77.4%) dan cakupan imunisasi campak yang disuntik sebanyak 23 balita (74.2%) dan hasil analisis bivariat menggunakan *Chi-Square* didapatkan nilai p value =0.031 ($<\alpha=0.05$). kesimpulannya terdapat hubungan yang bermakna antara peran kader posyandu dengan upaya peningkatan cakupan imunisasi campak di Puskesmas Buladu Kecamatan Kota Barat Kota Gorontalo Tahun 2015. Disarankan agar kader posyandu yang ada di Puskesmas Buladu agar dapat memotivasi ibu balita untuk membawa balita ke posyandu.

Kata Kunci : Peran Kader, Cakupan Imunisasi Campak
