

ABSTRACT

Agnes Cahyani Hamid, 2015. *The Relationship of the Supervision of Head of the Room with the Compliance of Nurses in Using Personal Protection Equipment at RSAD Aloei Saboe, Gorontalo City in 2015.* Skripsi. Department of Nursing. Faculty of Health Sciences and Sports. State University of Gorontalo. The principal supervisor was Dr. Sunarto Kadir, Drs, M.Kes., and Co-supervisor was Wirda Y. Dulahu, S.Kep. Ns., M.Kep.

Nurse is one of the health service providers as the main person in preventing the Nosocomial infection. Head of the room was the supervisor and also the determinant spearhead of the health service purpose in the hospital. The problem of this research was whether to know the relationship of the supervision of head of the room with the compliance of nurses in using personal protection equipment at RSAD Aloei Saboe, Gorontalo City in 2015.

This research aimed at knowing relationship of the supervision of head of the room with the compliance of nurses in using personal protection equipment at RSAD Aloei Saboe, Gorontalo City in 2015. This research used observational survey and interview with cross sectional study. Sample of this research was about 29 respondents and used total sampling technique. Testing of the data did manually and used spss software version 16.

This research showed that supervision of the head of the room were categorized good or about 82,8%, the compliance of nurses in using personal protection equipment were categorized good or about 79,3%, there was a significant relationship between supervision of head of the room with the compliance of nurses in using personal protection equipment at IRD room. This research suggested that the hospital can increase the management practice, especially in supervision.
