

CHAPTER V

CONCLUSION AND SUGGESTION

CONCLUSION

In this chapter I would like to present the conclusion and suggestion of research. The conclusion is as follows:

- a. The students' score in using prepositional phrase in the first text dream was 52,8 and the classified is "low". It means that they found difficulties in answering the question in the first text.
- b. The students' score in using prepositional phrase in the second text love story of Antony and Cleopatra was 84,8 and the classifications is "high". It means that in this text the students found little difficulties.
- c. The students' score in using prepositional phrase in the third text the story rabbit and bear was 66,29 and the classifications is "average". In this text the students' difficulties is middle level because only little students can make correct answer.
- d. The students' score in using prepositional phrase in the fourth the legend of Malin Kundang 89,71 and the classifications is "high". It can be concluded that in this text that many students can answer the question correctly.
- e. The students' score in using prepositional phrase in whole text was 74,17 and the classifications is "average". It can be conclude that the students only found little difficulties in answering the question.

Suggestion

Prepositional phrase is important for the students or writer in order to writer or conduct a test. Based on the result of this research, it can be suggested to next researcher to conduct a research about prepositional phrase in another media such the using prepositional phrase in paragraph, short story and so on.
