

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **5.1. Conclusion**

Robocop movie presented conflict between human and robot that faced by Alex. Alex had conflict between his humanity and his robotic side. The researcher found some conflicts since Alex become Robocop. Alex passed difficult days. The researcher found 18 data of script that show conflict human vs robot that faced by Alex. The conflicts divided into three categories such as avoidance – avoidance conflict, approach – avoidance conflict and approach – approach conflict.

At the first time be a robot, Alex felt frustration and desperate with his condition. He could not believe that he should alive as a half human robot that they used to be a cop or called Robocop. Alex should lost his emotion and feeling to became a real robot that controlled by the program. He ignored his family and best friend and preferred to do his job to fix criminality. Family and Humanity became the reason that made he realized and against his robotic side that brought him to take revenge to the people who made a trouble in his life.

#### **5.2. Suggestion**

The researcher hope this research can be the reference in literary. It will give the reader more knowledge about conflict that appear in the movie especially by human vs robot that showed in Robocop.

The researcher suggest for the next researcher will be interested to conduct similar research. This research can be reference to the further researcher that wants to analyze about human vs robot. It will give the helpful information that they need in conducting their research.
