## ABSTRACT

**Delfianti Latif Student ID. 153411021.** 2016. Development of Social Interaction Ability of the Children Age 2 -3 Years Old at Nurul Hikmah Playgroup of Bulango Utara Sub-district, District of Bone Bolango. Faculty of Education, State University of Gorontalo. Principal Supervisor was Dra. Samsiar Rivai, S. Pd., M. Pd and Co-supervisor was Dr. Setiyo Utoyo, M. Pd.

The problem in this research is how was the development of social interaction ability of the children age 2 – 3 years old at Nurul Hikmah Playgroup of Bulango Utara Sub-district, District of Bone Bolango. The objective of this research is to describe the development of social interaction ability of the children age 2 -3 years old at Nurul Hikmah playgroup of Bulango Utara Sub-district, District of Bone Bolango. This research uses qualitative method and data collection methods are through interview, observation, and documentation.

Based on these research findings, it shows that the development of social interaction ability of the students is on the development stage, however, their social interaction has not been fully developed. This is due to the diverse ability of the children, hence, teacher's guidance is expected in developing the social interaction ability of these children. It is concluded from this research that development of social interaction ability of the children age 2 – 3 years old is evident, even though this social interaction has not fully developed. Therefore, for children with slow social interaction ability development, it is expected that the teacher can play a role in solving the problem in order to develop good social interaction of the children.
