ABSTRACT

BerlantiMohamad, 2016.“Description on Children’s Macro Role Play Activities in Playgroup 1 of PPIT al-Ishlah of Kota Tengah Sub-district, City of Gorontalo.”Skripsi.Departement of Early Childhood Education, Faculty of Education, State University of Gorontalo. Principal Supervisor was Dr. Ruslin Badu, M.Pd and Co-supervisor was Dra. DajaniSuleman, M.Hum.

The objective of this research is to describe the children’s role play activities in playgroup 1 of PPIT Al-Ishlah of Kota Tengah Sub-district, City of Gorontalo. This research uses qualitative method with descriptive design, and using observation, interview and documentation as data collection method.

This research shows that children’s activities in macro role play in playgroup 1 of PPIT Al-Ishlah of Kota Tengah Sub-district, City of Gorontalo can be described as follows: out of 20 children, there were 12 children that still were less active in macro role play as doctor, and out of 12 children, there were 2 children that found it difficult to use the doctor’s equipment, such as, stethoscope and thermometer, and there were only 6 children that were totally able to be active in macro role play as doctor. Therefore, it is concluded that large proportion of children are still less able to play a role as doctor, nurse, patients due to many of them are still find it hard to communicate and less able to use the doctor’s equipment.
