

BAB V

PENUTUP

V.1 Kesimpulan

Berdasarkan penelitian ini dapat disimpulkan bahwa variasi konsentrasi PVA dapat mempengaruhi kestabilan fisik dari sediaan masker *peel off* masker sari buah naga merah (*Hylocereus polyrhizus*). Dari hasil pengamatan diperoleh formula 1 memiliki kestabilan yang baik, tapi pada siklus ke-4 sediaan mengalami perubahan warna karena adanya pengaruh temperatur dan cahaya selama proses penyimpanan.

V.1 Saran

Dapat dilakukan penelitian lebih lanjut mengenai metode penyimpanan sediaan pada suhu ekstrim.
