

Chapter V

Conclusion and Suggestion

In this chapter, the researcher presents the conclusion and suggestion related to implementation of PAIKEM strategy in English learning exactly.

Conclusion

After finished the research and describe the finding of research and discussion, research concludes that implementation of PAIKEM strategy in English learning teacher combine the learning method. There are some kind of methods in supporting PAIKEM strategy that they used such as think-pair-share, group discussion, explicit instruction and implicit instruction. They choose exact method so they can manage the class and also evoke an atmosphere of learning. They stimulate students' ability in giving question about the material. In choosing right method can make student involve in learning process both emotionally and spiritually. It could build communication and interaction between teacher and students optimally. On learning activities teachers assign tasks and questions as well as providing materials and information to help students solve problems give by the teacher.

Other indicators in PAIKEM strategy feedback and evaluation, it is to measure the extent of students' understanding of the material. It is also to know the successful achievement of the indicators and the learning targets. Reflection identify the weaknesses and strengths or effective and whether or not of a learning

model. if the indicator above goes well, it can be ascertained that the expectations of teachers on students' achievements will be increased.

Suggestion

Grounded in the results of research that has been described, then researcher desire to give suggestions to teacher about the implementation of PAIKEM strategy in English leaning:

1. In learning process, teacher should more creative in choosing and apply the learning method and also in using instructional media that suitable with the material in order to students happy and exited in receiving material.
2. PAIKEM do not only apply at a particular time, just try to apply it every meeting.
3. School have to promote PAIKEM strategy to teacher and students to make it applied routine.
4. Research about implementation of PAIKEM should not be the last but it should be held more extensive and detailed research in order to PAIKEM is going to explore.
