

## **Chapter V: Conclusion and Suggestions**

### **Conclusion**

Based on the finding of the research it can be concluded that a hypnoteaching method is considered as an effective way in learning and teaching process by following the steps such as intention and motivation, comfortable learning atmosphere, positive words, gave praise and modeling.

The result of this research also indicates that the students need learning method that is not only focuses on knowledge aspect but also fun class atmosphere, teachers' caring, appreciating, respecting and understanding. The result of this research is original from the interview of students' opinions about Hyopnoteaching method that applied by some teachers or lecturers. All the participants give the positive responds to the Hypnoteaching method that applied in teaching and learning process.

### **Suggestions**

Teaching not only talks about a topic, but also need method. Hypnoteaching methods create the learning process more dynamic and make a good interaction between teachers and students

Principally, Hypnoteaching method emphasizes on changing students' perception to the teacher, with a good perception to teachers, make learning process more intimate and fun so that will be easy students understand of lesson.

Based on the result of the research, the researcher has some suggestions for the English Department, the lecturer and the researcher that can be given in relation to the researcher's conclusion, they are as follow:

1. The first, it is expected to provide the finding of students' perception about Hypnoteaching in English Department.
2. The second, it is suggested for the lecturer who will be used Hypnoteaching methods that can be used the research to explore other aspects especially further theory and analysis that refers to this research.
3. The third is this research will be a useful reference for the researcher, not only to fulfill the final project but also to comprehend deeply about the Hypnoteaching method, it is recommended to the other researchers to conduct a research which is deeper than this research and to investigate more about Hypnoteaching method. So the further researchers are, expected to find out more about on Hypnoteaching method.
