

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher would like to present some conclusions and suggestions based on the research findings and discussion in the previous chapter.

Conclusion

Based on the result of research findings the researcher concludes that the teachers used some strategies in teaching their students such as picture, realia, textbook, behavioral strategy, and language model.

But generally, teacher used pictures more than other strategy. They used picture from school textbook when they think that picture is suitable and interesting for their students. Sometimes, they used other sources like internet or their handmade.

Therefore, it can be said that the teachers used kinds of strategy when they teach in the class. In conclusion, the teachers are excellent enough when they are used strategy in teaching process. They adapted depend on condition of their students.

Beside it they are innovative because they as a teacher sometimes search the material in the internet as an addition material to search suitable for their students. And then they are creative in teaching, they make student interested in learning so are easy to stimulate their students. Furthermore, they created students' situation that make students feel happy to learn English, to grow students potency to the critical thinking and gives opportunity to students to accomplish opinion and suggestion and also to motivate them.

Suggestion

Finally, from this research , the researcher suggests the teachers not to feel afraid or embarrassed to try the new strategy, model,aspect, or style when they teach, because through doing these the teachers can improve the education's quality.

Moreover, the teachers also have to read, listen,reflect and discuss about the subject matter or teaching methods. At last but not least, the strategy should be mastered shared to other English teachers.
