

## **Abstract**

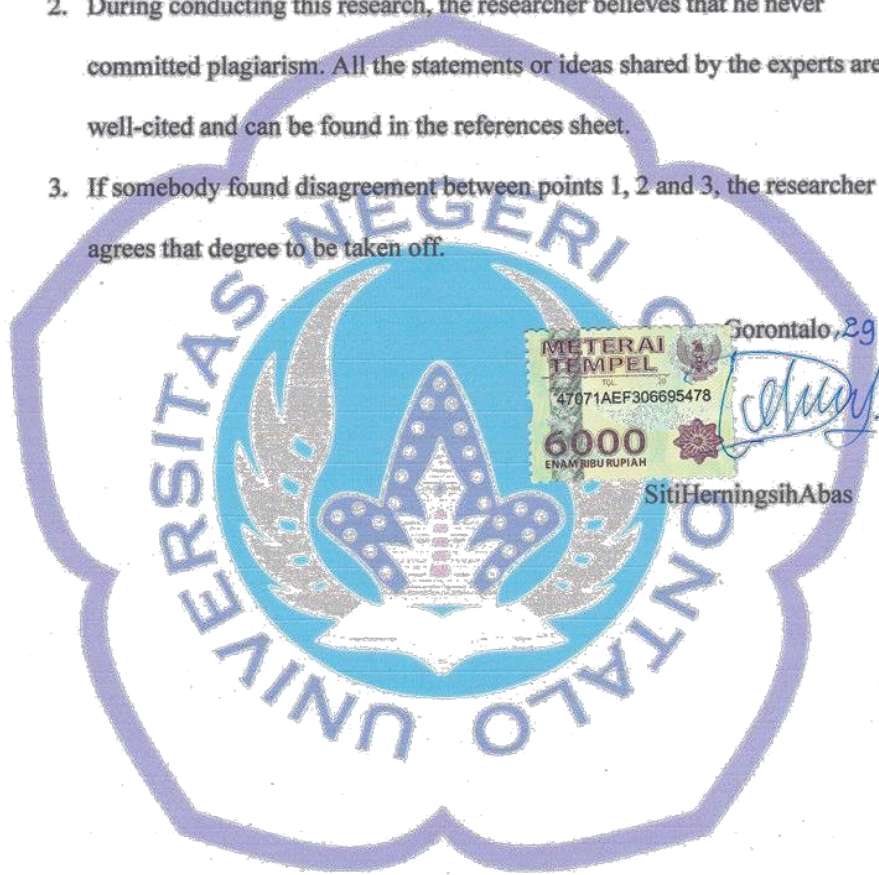

Abas, Sitiheringsih (2016). The use of cooperative learning strategies 'two stay two stray' to develop students reading comprehension in recount text (A research conducted at the students of eight grade in SMP N 5 Bolaang Uki) Skripsi. English Department, Letter and Culture Faculty, Universitas Negeri Gorontalo. Advisors: Dr. Rasuna Talib, M.Hum and Helena Badu, S.Pd, M.Pd.

This research is aimed to find out the students' reading comprehension in recount text after the application of two stay two stray strategies. In this case the sample of this research is taken by using purposive sampling. The sample is 24 students of eight grades at SMP N 5 Bolaang Uki. The method of this research is quantitative method. The instruments used in collecting the data is 20 of multiple choice questions to measure the increase of students in reading comprehension in recount text by using pre test and post test design. All the data analyzed by using normality test and T-test. The result of this research showed that by following the hypothesis verification in this research was received where in the case that  $t_{count}$  is larger than  $t_{list}$ . The  $t_{count}$  was 4,39 and the  $t_{list}$  was 2,07 all of them counted by similarity level namely 23 (n-1) then level significant  $\alpha=0,05$ . Thus, it is clearly seen that  $t_{count} \geq t_{list}$  or  $3,39 \leq 2,07$ . The values that have been explained in this passage mean that the hypothesis can be accepted or the other words that teaching reading by using two stay two stray strategy can improve the students' ability in comprehending reading recount text.

**key word: reading comprehension, recount text and two stay two stray strategy**

### Statements of Authorship

1. This research is an original work of the author and no previous research to seem likely the same with this
2. During conducting this research, the researcher believes that he never committed plagiarism. All the statements or ideas shared by the experts are well-cited and can be found in the references sheet.
3. If somebody found disagreement between points 1, 2 and 3, the researcher agrees that degree to be taken off.
