

Chapter V

Conclusions and Suggestions

This chapter presents the conclusions and suggestions of this research.

Conclusions aim to summarize the contents of the study. Suggestions are composed of some of the things devoted to several parties such as lectures, students, readers, and subsequent researchers that related with this research.

Conclusions

Diction is choosing which words are used to convey an idea or ideas and how to use the word correctly. Appropriate word choice can only be done by people who mastered a large number of vocabulary of a particular language. Diction or word choice is crucial in conveying the meaning of an idea.

This study observes the type of diction used by commentator in badminton. The object of this study is John Helm commentary of Asian Games badminton mixed doubles semifinal match in 2014 between Indonesian pairing and Korean pairing. This study uses qualitative method in completing its contents, ranging from collecting data, analyzing data, until presenting the research results.

Based on the result of this research, it can be concluded that in John Helm's sentence when commenting badminton mixed doubles semifinal match of the 2014 Asian Games, there are 56 data that categorized into 9 types of diction.

Researcher found there are 8 denotative dictions, 8 connotative dictions, 10 abstract dictions, 7 concrete dictions, 4 general dictions, 3 specific dictions, 6 popular dictions, 7 jargons, and 3 slangs.

Suggestions

Suggestions from this study is addressed to several parties who are directly or indirectly will utilize the results of this study related to the use of diction.

1. Suggestions for the readers

Researcher suggests to the reader that they can take advantage from this research to develop their knowledge of the use of diction in sports commentary.

2. Suggestions for lectures and students of English Department

This research is expected to be additional information or additional knowledge in the fields of linguistics, especially in the field of semantics. From this research, the researcher hope that the lectures and students can work together to study the use of diction in sports commentary as presented in semantic study.

3. Suggestion for subsequent researchers

Suggestion for subsequent research that they can utilize this study as a comparison or search the gaps that have not been studied. With the amount of information presented in this study, there are many new things are discovered as the advancement of knowledge. Thus, they

can obtain the results of research on diction more complete and accurate.
