CHAPTER V

CONCLUSION AND SUGGESTION

Conclusions

The writer draws two conclusions base on the problem statement after analyzing the metaphors in “The Tower” poem by William Butler. The writer can concluded as follows:

1. In analysis “The Tower” poem by William Butler the writer finds three types of metaphors. They are ontological metaphor, orientational metaphor, and structural metaphor. The writer finds 23 cases of metaphors which consist of 8 cases ontological metaphors, 5 cases of orientational metaphors and 10 cases of structural metaphors. Which are the three types metaphors proposed by Lakoff and Johnson. The dominant types of metaphor that is used William Butler in “The Tower” poem is structural metaphor.

2. Usually, the readers does not get what the writer means of the poem which contain metaphors. It is difficult for the readers to know the meaning of the metaphor which wants to be conveyed by the writer. Therefore, it is needed for both of the writers and the readers have the same assumption to make the message delivered well to the reader. By interpreting the meaning of the poem, it can help the reader to get the meaning of the poem. Interpreting the literal meaning found in dictionary. The metaphorical meaning in the poem is very interesting in order to make a
great description of metaphor in literary work. From the two ways above, it provides the result, which is literal meaning comes from the dictionary and metaphorical meaning is meaning which come from the interpretation of the readers by analyzing the sentence the data base on every categories.

**Suggestion**

Metaphor has been part of daily conversation to help conveying messages. Using metaphor, ideas can be expressed clearly in economical use of words. Therefore the writer would like to suggest those who are interested in communication skill to apply metaphor as one of their way to get their ideas over to their audience.

The writer would also like to suggest the students of literature to analyze metaphor in the poems. Literary works can also be found in poems, not only the novel, film, and music. The writer hopes that this study will be useful for semantic learners. The readers can also use this studied as a reference to another research especially for analyze the meaning research. Although, in this study the writer aware have many drawbacks and are still far from perfection. Every humans have a way or a different view in analyzing something, especially the found meaning in the poem. But, in this study the writer have tried to do their best.

<td>St : 25, Line : 177</td>
<td>Here the poet used the word of pride and faith. It will have different meaning both of the words are interpreted literal. In literal meaning of “I” is as the subject of a verb, used by the person speaking or writing to refer to himself or herself, “faith” is great trust or confidence in something or someone. In metaphor, this line means sacrifice to do something.</td>

<td>I leave both faith and pride To young upstanding men Climbing the mountain-side, That under bursting dawn They may drop a fly; Being of that metal made Till it was broken by This sedentary trade.</td>
<td>In this stanza the poet wrote many words which are included to metaphor. Here the words are interpreted to structural metaphor, that is “that under bursting dawn”, these words have non literal meaning is “the strong emotion”, it is related to the second lines <em>man makes a superhuman</em>. The fact “dawn” shows the time of the morning and not able to put out the fire, because there is a combination with the word <em>bursting</em>. So, here compares two things directly, those are bursting and dawn.</td>
