The purpose of this research is to find out the stereotypes of language features used by female students in English department. The main theory from Robin Lakoff ((1973) was used to analyze the data. Lakoff (1973) said that there are ten language features of female named *lexical hedges, tag question, rising intonation, empty adjective, precise color, intensifier, hypercorrect grammar, super polite forms, avoidance of strong swear word and emphatic stress*. The data are examined by using qualitative method to explain one by one of the language features used by female students. The data are collected through observation inside the classroom of class A and D 2014 while the lecturer giving a lesson to the students. The findings reveal that from the ten language features from Lakoff, five of them appear. Those are *lexical hedges, tag question, rising intonation, intensifier, super polite form* in student's speeches. Five of them do not appear; those are *empty adjective, precise color, hypercorrect grammar, avoidance of strong swear word and emphatic stress*. These features do not appear because the students are still lack of vocabulary and the students in English department do not use English as their second language but they learn English as their first foreign language.

**Key words : *stereotype, language features, female, lexical hedges, tag question, rising intonation, intensifier, super polite form***

## ABSTRACT

Hardiyanti Haris, 321 412 061, 2017 “Stereotip Fitur-fitur Bahasa yang digunakan oleh Mahasiswi Jurusan Bahasa Inggris” Program Studi Pendidikan Bahasa Inggris, Fakultas Sastra dan Budaya, Universitas Negeri Gorontalo. Pembimbing: Sri Widyarti Ali, S.Pd.,M.Hum dan Fahria Malabar, S.Pd.,M.A.

Penelitian ini bertujuan untuk mengetahui stereotip fitur-fitur bahasa yang digunakan oleh mahasiswi Jurusan Bahasa Inggris. Teori utama dari Robin Lakoff (1973) digunakan untuk menganalisa data. Lakoff (1973) mengatakan bahwa terdapat 10 fitur bahasa wanita yaitu *lexical hedges*, *tag question*, *rising intonation*, *empty adjective*, *precise color*, *intensifier*, *hypercorrect grammar*, *super polite forms*, *avoidance of strong swear word* and *emphatic stress*. Data yang ada diuji menggunakan metode kualitatif untuk menjelaskan satu demi satu fitur-fitur bahasa yang digunakan oleh mahasiswi. Data dikumpulkan melalui observasi didalam kelas A dan D angkatan 2014 ketika dosen mengajar para mahasiswa. Hasil penelitian menyatakan bahwa dari sepuluh fitur bahasa Lakoff, lima diantaranya muncul pada bahasa mahasiswi. Kelimanya yaitu *lexical hedges*, *tag question*, *rising intonation*, *intensifier* dan *super polite forms*. Lima yang lainnya tidak muncul yaitu *empty adjective*, *precise color*, *hypercorrect grammar*, *avoidance of strong swear word* and *emphatic stress*. Fitur-fitur tersebut tidak muncul karena mahasiswi masih kekurangan kosakata dan mahasiswa Jurusan Bahasa Inggris tidak menggunakan Bahasa Inggris sebagai bahasa kedua melainkan bahasa asing.

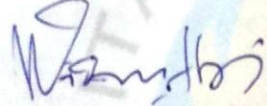

**Kata Kunci:** *stereotip, fitur-fitur bahasa, lexical hedges, tag question, rising intonation, intensifier dan super polite forms*
