

## **Chapter V: Conclusion and Suggestion**

### **1. Conclusion**

Based on the result of the findings and discussion, the researcher conclude that all the English teachers at SMPN 4 GORONTALO was applied their skill in teaching English. Based on students perception about the teachers, it also showed all teachers applied the English teacher skill. Overall, all teachers need to improve their skill in teaching. The researcher assumes that the caused of teachers can not applied all skill in teaching because the teacher's difficulty to handle the class and also teachers do not prepare well the lesson before come to the class.

### **2. Suggestion**

From the conclusion above, the researcher found that most of the eight skill of English teaching were applied at SMPN 4 GORONTALO. The researcher realized, the skill of setting up learning arrangement, guiding student's practice and making transition from one task to another task are incomplete, it indicated that to teacher's have to give more attention about that skill and also the tachers have to improve that skills on learning activity. It is aimed to the English larning process is going to succesfull and make the student's easy to learn and understanding the material.
