Chapter V : Conclusion and Suggestion

In this chapter, The researcher presents the conclusion and suggestion about the result of this research.

Conclusion

The result of this research shows that the use of English for kids movie especially Gogo’s movie as a media in teaching English vocabulary can overcome the students’ problem effectively. The process of teaching learning by using Gogo’s movie has increased the students’ vocabulary. The students were more enthusiastic and interesting to learn English. The students become more active, enthusiastic, interesting, and also more motivated in learning English vocabulary by using Gogo’s movie. So the process of teaching and learning is become alive.

There are strenghts and weaknesses faced by the researcher in teaching English vocabulary Gogo’s movie in SMP N 1 Kabila of grade VII.A Class. The strenghts are the students have the high interest in following the teaching learning process using Gogo’s movie, the students are motivated to be active in the class. and using Gogo’s movie, the students are motivated, memorized, remembered, for the students. The weaknesses are the researcher must spend time to prepare the material and design the classroom activity.
Suggestion

The researcher proposes the suggestion for the teacher, students, and English Department students. First for the teacher is should not only teach English vocabulary monotonous in one learning strategy, the teacher should be creative to find out the fun way to teach English Vocabulary, they have to creat all alternatives and they must creat conducting atmosphere in the classroom of teaching English language. Second for the students, the students should be active and creative in the English learning process, for English Department students if they want to increase their vocabulary, they can used Gogo’s movie as a media to learn English Vocabulary. Beside that, they can used this research as a future references to make a research.
