Abstract

Indry Frisiskawaty Ibrahim H. NIM 321 412 026. An Error Analysis of Morphological Process in Students' Research Proposal. Skripsi. English Department, Letters and Cultures Faculty, Universitas Negeri Gorontalo. It was supervised by Dr. Rasuna Rasid Talib, M.Hum and Helena Badu, S.Pd.,M.Pd

This study aims to investigate the phenomenon of errors by classifying various types of morphological process on students' research proposal. The participants of this study were ten high achievement students class of 2014 of English Department. The sources of data were students' research proposals while the data were morphological errors found in students' research proposals. The types of error in morphological process were grouped based on Dulay, Burt, and Krashen's theory (1982) referring to eight types of inflectional morphology. Based on the analysis, this study found that there were three types of morphological errors based on Dulay, et.al (1982) theory; they were omission inflection error, addition inflection error, misformation inflection error. In accordance with the final result, this study found thirty five morphological errors on students' research proposals, which omission errors were the highest frequency of error with twenty six times of occurrences, and then followed by addition errors with six times of occurrences, and the last with the lowest frequency of error were misformation errors with three times of occurrences. In the other hand, the influence of their first languages, carelessness, lack of knowledge, and over-generalization rules were the causes of error in morphological process.

Keywords: *Error Analysis, Morphological Process, Inflection, Surface Strategy Taxonomy*

ABSTRAK

Indry Frisiskawaty Ibrahim H. NIM 312 412 026. Analisis Kesalahan dalam Proses Morfologis pada Proposal Penelitian Mahasiswa. Skripsi. Jurusan Pendidikan Bahasa Inggris, Fakultas Sastra dan Budaya, Universitas Negeri Gorontalo. Pembimbing I adalah Dr. Rasuna Rasid Talib, M.Hum, dan Pembimbing II adalah Helena Badu, S.Pd, M.Pd

Penelitian ini bertujuan untuk menginvestigasi fenomena kesalahan dengan mengklasifikasi beberapa jenis proses morfologis pada proposal penelitian mahasiswa. Partisipan dalam penelitian ini adalah sepuluh mahasiswa berprestasi angkatan 2014 jurusan pendidikan bahasa inggris. Sumber data dalam penelitian ini adalah proposal penelitian mahasiswa dimana datanya adalah kesalahan morfologis yang ditemukan dalam proposal penelitian mahasiswa. Jenis-jenis kesalahan dalam proses morfologis dikelompokkan berdasarkan pada teori Dulay, Burt, dan Krashen (1982) yang merujuk pada delapan jenis morfologi infleksional. Berdasarkan hasil analisis, ditemukan bahwa terdapat tiga jenis kesalahan morfologis menurut teori Dulay, *et al* (1982); seperti kesalahan dalam penghilangan infleksi, kesalahan dalam penambahan infleksi, dan kesalahan dalam pembentukan infleksi. Hasil penelitian menunjukkan bahwa terdapat 35 kesalahan morfologis dalam proposal penelitian mahasiswa, dimana kesalahan dalam penghilangan infleksi merupakan kesalahan dengan frekuensi tertinggi dengan 26 kali kemunculan, selanjutnya diikuti dengan kesalahan dalam penambahan infleksi dengan frekuensi kemunculan 6 kali, dan frekuensi terendah yaitu kesalahan dalam pembentukan infleksi dengan frekuensi kemunculan 3 kali. Selain itu, kesalahan dalam proses morfologis juga dipengaruhi oleh bahasa pertama mereka, kecerobohan, kurangnya pengetahuan, dan aturan generalisasi yang berlebihan.

Kata kunci: *Analisis Kesalahan, Proses Morfologis, Infleksi, Taksonomi Siasat Permukaan*
