Chapter V

Conclusion and Recomendation

This is the last chapter, that consist of two part it is about the general conclusion of the study and some suggestions that hopefully will be valuable for the others who want to apply this media of teaching.

Conclusion

Regarding to the research finding and discussion in previous chapter, this pop song believed that, this media can mastering students' vocabulary in teaching english learning, this research was conducted in SMP Negeri 1 Bulango Utara, with students' obtain (41.70%) in pre test and was increased in to post test with students' obtain (58.60%).The hypothesis verification of this study got $t_{count} = 3,1$ and $t_{list} = 2,060$. Considering this result, the hypothesis of this research which was *English pop song* is able to impact students' ability of vocabulary mastery can be received since the $t_{count} > t_{list}$ which means there was difference result of their post test higher than the result of pre test after having the treatments, every the stage of pop song in learning process gave positive impact to the students even not all the students got that.

Recomemndation

After conducting this research, it can be suggested to the all english teacher who want to use this media pop song should be considering with timing and also condition, even we know based on the reseach conducting was success, should be pay attention to the timing and conditing in order to make learnig process mofre successful
