

Chapter 5. Conclusion and Recommendation

This chapter presents briefly the conclusion about the ability of pre-service teacher to apply the implementation teaching skill. This chapter also presents recommendations for both students and lecturers.

Conclusion

Based on research conducted by researchers on the ability of pre-service teachers to apply the implementation of teaching skills on the 6th semester of 2016, the following conclusions can be drawn; a) the results of the study indicate that the basic teaching skills in ppl 1 activities it's very good. this is proved by some basic teaching skills that the students have been implemented during the teaching and learning process, b) the skill of opening and closing the lesson points provides a psychological encouragement, not all participants have implemented it during the teaching and learning process. but in this case, it can be overcome thanks to the cooperation between teachers and students.

Recommendation

From the results of the research and discussion, the researcher hopes that this research can be continued and developed again by students who want to do research on basic teaching skills.

Given that teaching skills play a very strong role in the success of a teaching and learning process.
