## ABSTRACT

Siti Hardianti Bawenti. 321 415 037. 2022. *The Analysis of Code Mixing Found in Read.id News*. Skripsi. English Department, Faculty of Letters and Culture, Gorontalo State University. Advisor (I) Dr. Hanisah Hanafi, M.Pd and Advisor (II) Muziatun, M.App.Ling., Ph.D.

This research aims to find out the types of code mixing that are used in Read.id news. The data of this research was taken from the news that contains code mixing which categorized as Christmas and New Year topics, and was published on 1st November till 31 December 2020. The method used in this research is qualitative one. The data was collected by reading the news carefully, and making notes. In addition, the data that have been collected was analyzed by using some steps such as identifying the data source by filtering them into Christmas and New Year topics, and see if the news contained code mixing. Classifying the code mixing based on the three types of code mixing by using Muysken theory (2000). Analyzing each of the data by explaining the meaning using the complete sentence which contained those code mixing, and interprets them by explaining the translation and meaning of those code mixing. As a result, the researcher finds that there are 10 data of code mixing in Read.id news which is categorized as Christmas and New Year topics, and was published on 1st November till 31 December 2020. The only code mixing appeared is Insertion. It is because the whole data that has been found is only words and phrases. The 10 code mixing was divided into seven words, and two phrases. Moreover, the word and phrase are characterized as Insertion.

***Keywords: Code Mixing, Insertion, Alternation, Congruent Lexicalization***

## ABSTRAK

Siti Hardianti Bawenti. 321 415 037. 2022. Analisis Campur Kode dalam berita di Read.id. Skripsi. Jurusan Pendidikan Bahasa Inggris, Fakultas Sastra dan Budaya, Universitas Negeri Gorontalo. Pembimbing (I) Dr. Hanisah Hanafi, M.Pd, dan Pembimbing (II) Muziatun, M.App.Ling., Ph.D.

Penelitian ini bertujuan untuk mengetahui jenis campur kode yang digunakan dalam berita di Read.id. Data penelitian ini dikumpulkan dari berita-berita yang mengandung campur kode dimana berita-berita tersebut memuat topik tentang Natal dan Tahun Baru, dan diterbitkan pada tanggal 1 November hingga 31 Desember 2020. Metode yang digunakan dalam penelitian ini adalah metode kualitatif. Teknik Pengumpulan data dilakukan dengan cara membaca berita secara cermat, dan membuat catatan. Selanjutnya, teknik analisis data menggunakan beberapa langkah seperti mengidentifikasi sumber data dengan mengklasifikasi data tersebut ke dalam topik Natal dan Tahun Baru, dan mengidentifikasi apakah berita-berita tersebut mengandung campur kode. Proses pengelompokan dilakukan berdasarkan tiga jenis campur kode dengan menggunakan teori Muysken (2000) yaitu menganalisis setiap data dengan menjelaskan makna menggunakan kalimat lengkap tentang kalimat yang mengandung campur kode, dan menafsirkannya dengan menjelaskan terjemahan dan makna dari kalimat yang mengandung campur kode tersebut. Hasil penelitian menunjukkan bahwa terdapat 10 data yang mengandung campur kode dalam berita di Read.id. Satu-satunya tipe campur kode yang muncul yaitu penyisipan karena seluruh data yang didapatkan hanya dalam bentuk kata dan frasa. Kesepuluh campur kode tersebut dibagi menjadi tujuh kata, dan dua frasa. Selain itu, kata dan frasa dikategorikan sebagai Penyisipan.
