Abstract

Rostin Hilipito. 2022. Nim 321415117. Morphological Interferences in Basic Consideration of Students' Thesis. English Department, Letter and Culture Faculty, Universitas Negeri Gorontalo. Advisor(1)Indri Wirahmi Bay, S.Pd., M.A. Advisor(2) Sri Widyarti Ali S.Pd.,M.Hum.

The research intended to find out the types of morphological interferences made by English Department students in their writing undergraduated thesis. The researcher focused on the theory of Carstairs-McCarthy (2002) and Bay (2018) which looked at the types of interference. In hance, this research used qualitative method which analyzes the data by collecting the sources of data, identifying the types of morphological interference, describing them based on the classification and explaining the types of morphological interference based on the referencial theory. From 13 undergraduated thesis which alanyzed by the researcher, it was found that the interference frequently happened at the past tenses 40%, followed by the singular plural agreement with 20%, subject verb agreement 13,3%, incorrect of passive voice 10%, incorrect of demonstrative pronoun 8,3% and incorrect of comparative adjective 8,3%. Therefore, it was suggested to the students to pay attention to switch the linguistics form of the language based on the context of the discussion such in past form, in plural, in singular and repeated words.

Rostin Hilipito. 2022. NIM 321415117. Interferensi Morfologis pada Latar Belakang Skripsi Mahasiswa. Jurusan Pendidikan Bahasa Inggris. Fakultas Sastra dan Budaya. Universitas Negeri Gorontalo. Pembimbing (1) Indri Wirahmi Bay, S.Pd., M.A, dan Pembimbing 2) Sri Widyarti Ali, S.Pd., M.Hum.

Penelitian ini bertujuan untuk mengetahui jenis-jenis interferensi morfologis yang dibuat oleh mahasiswa Jurusan Bahasa Inggris dalam penulisan skripsi. Peneliti menggunakan teori Carstair-McCarthy (2002) dan Bay (2018) untuk mengidentifikasi jenis-jenis interferensi. Disamping itu, penelitian ini menggunakan metode kualitatif yang menganalisis data dengan mengumpulkan sumber data, mengidentifikasi jenis-jenis interferensi morfologis, mendeskripsikannya berdasarkan klasifikasinya dan menjelaskan jenis-jenis interferensi morfologis berdasarkan teori referensi. Dari 13 skripsi yang dianalisis peneliti, ditemukan bahwa interferensi sering terjadi pada *past tenses* (*tenses* bentuk lampau) yakni 40%, diikuti oleh *singular-plural agreement* 20%, *subject-verb agreement* 13.3%, *incorrect of passive voice* 10%, *incorrect of demonstrative pronoun* 8,3% dan *incorrect of comparative adjective* 8.3% Oleh karena itu, disarankan kepada mahasiswa untuk memperhatikan perubahan bentuk linguistik dari bahasa berdasarkan konteks pembicaraan seperti bentuk lampau, jamak, tunggal, dan kata berulang.
